

Leveraging the Immunologic Dysfunction in Bladder Cancer Through Combination Systemic Therapy

Vivek Arora, MD

Molecular Oncologist

Washington University School of Medicine

MEDICINE GRAND ROUNDS

Thursday, February 14, 2019, 12 - 1 p.m.

Werner Auditorium, Orlando Campus

The objectives of this Medicine Grand Round are to:

- Review the role of the immune system in the pathogenesis of patients with bladder cancer.
- Describe the immunotherapy clinical trial data in the systemic treatment of patients with advanced or metastatic bladder cancer.
- Discuss the personalization of care that incorporates shared decision making in the management of patients with advanced or metastatic BC.

Videoconferencing available upon request.

- To request videoconferencing, please contact the Continuing Professional Development Department.

Target Audience: All
